Jacob Gehring

jacob.gehring@hope.edu | (859) 397.8869 | Holland, MI

EDUCATION

Hope College, Holland, MI | Expected Graduation: May 2028
Bachelor of Science in Engineering (ABET accredited), Mechanical Concentration

- Minor: Mathematics
- Dean's List: 4/4 semesters, Pi Mu Epsilon National Mathematics Society
- GPA: 4.0

RELEVANT COURSEWORK

- Intro to Engineering Materials
- Statics, Mechanics of Materials
- Calc. 1-3, Diff. Eq. Linear Alg.
- Computer Aided Design, Advanced Design
- Engineering Computing
- Applied Thermodynamics
- Mechanical Vibrations
- Dynamic Systems
- Conservation Principles
- Circuit Analysis and Applications

RESEARCH EXPERIENCE

Ocean and Resources Engineering Intern | ***University of Hawaii*** May 2026 - July 2026
Project: Converting a BlueROV into a Resident Autonomous Underwater Vehicle (RAUV)

- Engineered novel mounting plates to integrate new AUV subsystems into the ROV's existing pressure vessels, resulting in the addition of several new independent systems to the existing enclosure space
- Designed and fabricated battery temperature/voltage monitoring hardware, using it to record data during live underwater testing, and then processed resulting data into presentable results to evaluate system performance
- Debugged CAN bus (UAVCAN/DroneCAN) communication between USB-CAN adapters and a wireless charging system, resolving firmware and driver issues across Windows and Linux and restoring communication

WORK EXPERIENCE

Help Session Leader | ***Hope College Engineering Department*** August 2026 - Present

- Lead weekly Statics help sessions, guiding students through engineering problems step-by-step in front of groups, translating complex concepts into clear, approachable solutions.
- Respond to student questions in real time and adapt explanations to different learning needs, strengthening technical communication, leadership, and problem-solving skills.

Hope College Tour Guide | ***Hope College Office of Admissions*** August 2026 - Present

- Lead individual and group campus tours for prospective students and families, adapting communication and conversation to different interests, questions, and backgrounds.
- Represent Hope College and the Admissions Office through professional, engaging hospitality, communicating student experiences, campus resources, and academic opportunities to prospective students.

ASC Tutor | ***Hope College Academic Success Center*** January 2026-May 2026

- Tutor groups of 1-3 students 2-3 times a week for both math and engineering classes
- Help students understand challenging concepts by breaking down problems into clear, manageable steps and adapting explanations to different learning styles

AI Trainer | ***DataAnnotations, Remote*** July 2025 - December 2025

- Write and evaluate prompts for chatbots in testing; critique their language skills, sentence structure, and fact-check responses; Train chatbots on pattern recognition and image generation

Administrative Technician | ***EyeMax, Lexington, KY*** June 2024 - August 2025

- Performed patient testing (Schnellen Chart, Autorefraction, intraocular pressure, dilation) to support accurate diagnoses
- Checked in and prepared patients, verifying insurance and scheduling appointments to ensure that office flow was not disrupted in an office seeing 36+ patients per doctor per day

COLLEGE AND COMMUNITY ENGAGEMENT

Community Action House | ***Holland, Michigan*** April 2026 - Present

- Serve at a local food club sorting, processing, and stocking donated items in the store

West Ottawa Wyldlife | ***Holland, Michigan*** February 2024 - October 2025

- Volunteered for a youth ministry focused on middle schoolers and lead a weekly group that had 40+ student attendees - lead Bible studies, built relationships with kids, and strove to be a role model/resource for them

Hope College Orientation Assistant | ***Holland, Michigan*** August 2025

- Led an orientation group of 13 incoming freshmen and facilitated orientation sessions to prepare them for classes and help them adjust to college life

SKILLS

- *Engineering & Technical*: SolidWorks (CSWA certified), AutoCAD, LT Spice, SageMath/MATLAB, C++, UAVCAN/DroneCAN, Excel + Microsoft Office Suite, PCB board repair
- *AI Tools*: Advanced use of ChatGPT and Claude for writing Python scripts and building spreadsheets
- *Languages*: German (conversational)
